SKILLS

DESIGN & ANALYSIS

- DFM/DFA, DFMEA
- Stress & Fatigue Analysis
- Root Cause Analysis
- Rapid Prototyping (3D Printing)

CAD

- SolidWorks (FEA, Sheet Metal, Drawings)
- AutoCAD, OnShape, Autodesk Revit
- Mastercam

MANUFACTURING

- Engineering Drawings
- CNC Milling, Turning, Sinker EDM
- Soldering, Wiring

SOFTWARE

- MATLAB, EES, Python
- HTML, CSS, JavaScript
- Bluebeam Revu, Spitfire, PlanSwift

KEY PROJECTS

Freight Elevator | Jan – May 2026

- Redesigned components in SolidWorks to improve safety, load-bearing capacity, and operational efficiency.
- Applied FEA to evaluate design improvements and performance.

Carrier Shafts | Nov – Dec 2025

- Designed using stress analysis, S-N fatigue methodology, and Modified Goodman fatigue criteria.
- Achieved design with acceptable FOS and infinite life in fatigue.

Battle Bot | Jan – May 2024

- Designed the chassis and weapons systems in SolidWorks.
- Fabricated all components using additive manufacturing (3D printing).
- Advanced to competition finals and received “Most Creative Design” award.

EDUCATION

OHIO UNIVERSITY

BS in Mechanical Engineering

Aug 2023 – May 2027

- 3.63/4.00 GPA
- Mathematics Minor
- Lean-Six Sigma Certification

EXPERIENCE

Ceco Concrete Construction | Cincinnati, OH | May – Aug 2026

Project Manager – Intern

- Assisted with preconstruction planning for the \$2.5 billion Cleveland Browns stadium project by supporting cost estimates and coordinating project documentation using PlanSwift, Bluebeam Revu, and Spitfire.
- Collaborated with engineering and field teams, gaining experience with Revit-based formwork design, bill of materials management, and FEA-driven structural analysis.
- Conducted jobsite inspections of rigging, tools, fall protection systems, and safety equipment to support OSHA-compliant construction operations.

Amazon | Imperial, PA | May – Aug 2025

Equipment Operator – Full-Time

- Safely operated powered industrial trucks (PITs) to move, stage, and organize freight in a high-volume fulfillment center.
- Supported critical operations during Amazon Prime Day event, successfully performing in an exceptionally demanding environment while maintaining operational efficiency and accuracy.

ODOT | New Philadelphia, OH | May – Aug 2024

Construction Engineer – Intern

- Led and supervised a materials coring and sampling crew, ensuring efficient and safe operations.
- Performed material property testing and documented test results.
- Managed contract line-item summaries and change orders using AWP software, ensuring accurate project documentation and cost tracking.

Amazon | Imperial, PA | May – Aug 2023

Fulfillment Center Warehouse Associate – Part-Time

- Contributed to a 3% increase in the processing rate of the facility, highlighting commitment to productivity and process improvement.
- Consistently recognized as one of the facility's top processors.

EXTRACURRICULARS

SAE Baja | Athens, OH | Jan – May 2025

Manufacturing Team Member

- Modelled mechanical components in OnShape while collaborating with manufacturing team members during vehicle development.
- Acquired experience in both soft and hard skills such as sub-team communication and part assembly.

Ohio University Marching 110 | Athens, OH | Aug 2024 – Present

Member & Staff

- Performed as a member of a nationally recognized collegiate marching band, demonstrating leadership, teamwork, discipline, and reliability.
- Silver Coin Recipient, awarded to those who have helped the band achieve greater heights through performance, accomplishment, support, and service.
